

Trusted Technical Expertise.

## Air Testing

- Air Emission Trains
- Acetaldehyde
- Chloroform
- Dioxins & Furans
- Formaldehyde
- HAPs
- Hydrochloric Acid
- Metals
- Methanol
- NCASI Protocols
- Organic Compounds
- Semivolatiles (SVOCs)
- Volatiles (VOCs)
- Phenols & Cresols
- Pentachlorophenol
- TRS Speciation

## Cluster Rule

- Adsorbable Organic Halides (AOX)
- Formaldehyde
- Chemical Oxygen Demand (COD)
- Chlorinated Phenolics
- Chloroform
- Dioxins & Furans

## General Process Testing

- Pulping Liquors
- Lime Mud
- Kiln Product
- Smelt
- Mill Deposits
- Bleach Chemicals
- Other tests as requested

## Fuel Analyses

- Ash
- BTU
- Proximate
- Sulfur
- Ultimate

## Groundwater Monitoring

- Appendix I
- Appendix II
- Appendix IX

## Hazardous Waste

- Corrosivity
- Ignitability
- Profile Sheets
- Reactivity
- TCLP

## MACT

- Hazardous Air Pollutants (HAPs)
- Methanol
- Methanol, Acetaldehyde, MEK and Propionaldehyde

## On-Site Sampling

- Conventional Monitoring Protocols
- Conventional Sampling Protocols
- Clean Sampling Protocols
- Passive Diffusion Samplers

## Product Testing

- Dairyman's Standard
- FDA Extractions
- Proposition 65
- Customer Specific Parameters

## SARA Title III Testing

- Phenol & Catechol
- Terpentine Components

## Stormwater Testing (Permit Specific)

- Chemical Oxygen Demand (COD)
- Metals
- Oil & Grease
- Total Suspended Solids (TSS)
- Total Organic Oxygen (TOC)

## Used Oil

- Heat of Combustion
- Metals
- PCBs
- Total Halogens

## Wastewater (NPDES)

- Biological Oxygen Demand (BOD)
- Metals
- NCASI Protocols
- Organic Compounds
- Semivolatiles (SVOCs)
- Volatiles (VOCs)
- Priority Pollutants
- Resin & Fatty Acids
- Total Suspended Solids (TSS)
- TRS Speciation
