

Columbia Analytical offers convenient and flexible sampling and shipping services to its industrial clients and consultants. Whether you prefer to work directly with a laboratory or to minimize time spent packing coolers in the field, Columbia Analytical can help with its reliable lab sampling and courier service.

Established in 1986, Columbia Analytical is an employee-owned, full service chemical and biological analytical laboratory network, headquartered in Kelso, Washington. The network is comprised of seven fixed laboratories in Arizona, California, Florida, New York, Texas and Washington. Our staff of over 300 employees includes chemists, biologists, computer scientists, technicians and support personnel. We take pride in tailoring our services to meet the individual needs of our clients by providing high quality, cost-effective, and timely analytical data.

Field Sampling

Columbia Analytical currently provides sampling services for a wide array of projects including:

- Waste Water
- Hazardous Waste
- Soils
- Meter Reading
- Drinking Water Systems
- Extraction Wells
- Wipes
- Surface Water & NPDES Sites
- System Inspections
- Air & Vapor Systems
- Equipment Maintenance
- Treated Ground Water Systems

Columbia Analytical provides trained field technicians to work directly with the industrial client providing a responsive, reliable, all-inclusive sampling & shipping service with a single point-of-contact to ensure that no details are missed. Consultants also can utilize this service to monitor projects located in cities where they might not have local offices. This is also a cost-effective option for those projects that are just too small to justify the travel time.

Shipping

Columbia Analytical can help field crews maximize their day by providing on-site sample packing and shipping services. This ensures that your samples arrive at the lab the next morning properly packed and iced directly from the job site without wasting valuable field time. Columbia Analytical will provide all shipping materials and can provide additional field supplies if crews run short of bottles or other sampling essentials. Shipping with overnight services accommodates short holdtimes. Standard courier service is also available for cooler pick-ups from your offices if holdtimes are not an issue. Columbia Analytical has the flexibility to be where you need us most.
